

Hayden Canyon Charter — School-Wide Run Sheet

Animals: 1 pony + 1 horse + Clydesdales

Total students: ~325 across 9 sessions

Total day: ~6 hours including setup, breaks, lunch, pack-up

Format: Animals stay in ONE fixed location. Classes rotate through.

The Day at a Glance

Time	Grade	Kids	Animal focus	Theme
8:00–9:50	Arrive, unload, set up	—	—	—
10:00–10:25	Reese & AM Kinder	42	All 3	Meet them. Be gentle.
10:25–10:30	Quick water break for animals			
10:30–10:55	2nd Grade (both)	49	Pony + Clydesdale	3 Big Rules + size comparison
11:00–11:30	Animal rest break — water, hay, quiet			
11:30–11:55	5th Grade (all)	51	All 3	Stacie's story + horse jobs
12:00–12:25	LUNCH for Stacie + animals (trailer rest)			
12:30–12:55	4th Grade (all)	40	All 3	Plateau history + hay math
1:00–1:25	7th & 8th	45	All 3	Career conversation + business case
1:30–1:55	3rd Grade	41	All 3	Body language + horse history
2:00–2:25	PM Kinder	16	All 3	Meet them. Be gentle.
2:25–3:00	Pack up, debrief with principal			

Critical Setup — Animals Stay, Classes Rotate

You CANNOT walk three animals from classroom to classroom. They stay in ONE location all day. Classes come to them.

Best location: Gym OR outdoor covered area. Avoid carpet. Lay stall mats or tarps on hard floors.

The setup:

- Pony, horse, and Clydesdale in their own marked-off areas (15+ feet apart so kids can see scale)
- Hay nets out of kid sight (let animals snack between sessions)
- Water buckets behind each animal
- Quiet zone rope 6+ feet from each animal
- Materials table at the entrance: take-home one-pagers, business cards, Sprint flyer

The HELPER: You need ONE adult helper for the day. Their job: watch each animal for stress, manage materials, hand out water/hay, take photos (no kid faces unless releases signed), take notes on kid + teacher quotes.

Animal Welfare Protocol (the non-negotiable)

Watch for stress signals on EACH animal: tail swishing more than usual, ears pinned back, lifting feet anxiously, refusing treats or water, heavy sweating in cool air, sudden head-tossing or backing up.

If any animal shows signs: cut their feature time, other animals carry the session, 30 min in a quiet space, water + hay.

Required breaks: 20 min after 2nd Grade, 30 min for lunch, 5 min between every session.

Universal Opening — Use at the START of every session

Adjust energy by age but keep the structure. About 3 minutes.

"Hi everybody. I'm Stacie. I'm a horse person from a place called Tribal Cowboy in Athol. Today I brought my pony, my horse, and my Clydesdales to meet you. The Clydesdales are the biggest horses you'll ever see.

Before anybody does anything, we have **THREE** rules. Just three. Hold up three fingers like me.

RULE ONE: Inside voice. No screaming. Horses are prey animals — a scream sounds like a wolf coming to hunt them.

RULE TWO: Walk, don't run. Quick moving things scare horses.

RULE THREE: If you walk near a horse, say HI first — especially behind her. Horses have blind spots.

Three rules. Inside voice. Walk. Say hi. Got it?

Let me also teach you **ONE** quick signal. When I say 'WHOA, PARTNERS!' you **FREEZE** and put your hands behind your ears like this (demo Pony Ears). We'll use that any time it gets loud."

10:00–10:25 — Reese & AM Kinder (42 kids) | 2:00–2:25 — PM Kinder (16 kids)

Theme: Meet the three animals. Learn to be gentle.

- **0:00–0:03** Universal opening
- **0:03–0:08 Pony body parts.** Point: hoof, mane, tail, eye. Kids touch their own. Count her hooves (1, 2, 3, 4).
- **0:08–0:13 Meet the horse.** "Bigger than a pony. Same parts, just bigger. Watch her ears."
- **0:13–0:20 Meet the Clydesdales.** "Biggest horses you'll ever see. Look at their **HOOVES** — bigger than a dinner plate. Each one eats 25 pounds of hay every day." Show a hoof up close.
- **0:20–0:23** Sensory wrap. Each kid waves to one animal of their choice.
- **0:23–0:25** Goodbye + sticker handout.

Don't: Don't let 5-year-olds approach the Clydesdales unsupervised. Helper holds each halter the whole time.

10:30–10:55 — 2nd Grade, both classes (49 kids)

Theme: 3 Big Rules + body language + size comparison.

- **0:00–0:03** Universal opening
- **0:03–0:08 Pony Looks live demo.** Point at the pony's ears. "Happy or grumpy?" Same with the tail.
- **0:08–0:13 3 Warning Signs.** Ears flat, tail fast, foot lifted. "Tell a grown-up."
- **0:13–0:18 Compare the three animals.** Side-by-side: pony (small), horse (medium), Clydesdale (BIG). Jobs: pony rides, herding, pulling wagons.
- **0:18–0:22** Body language quick check across all three.
- **0:22–0:25** Goodbye + tease the 4-week Sprint.

11:30–11:55 — 5th Grade, all classes (51 kids)

Theme: Stacie's story + horse business + Hay Math.

- **0:00–0:03** Universal opening
- **0:03–0:13 The real story of Tribal Cowboy.** Nisenan Maidu. North Idaho. Started with one pony, now Clydesdales, ponies, wagon, facial-recognition photo delivery. Be real about the hard parts.
- **0:13–0:18 Hay Budget Math** — deeper. Hay \$15/bale, vet \$80 every 6 mo, hoof trim \$50 every 8 wks. ~\$5,000–\$7,000 per horse per year.
- **0:18–0:22** Open Q&A.
- **0:22–0:25** Goodbye + internship mention.

12:30–12:55 — 4th Grade (40 kids)

Theme: Working horses + Hay Math.

- **0:00–0:03** Universal opening
- **0:03–0:08 Working horses of the American West.** Cowboys, Pony Express, police horses, Clydesdales as draft horses.
- **0:08–0:13 Pony Vision quick demo.** Eyes on sides, two blind spots. Walk around the pony.
- **0:13–0:19 HAY BUDGET MATH** on whiteboard. Pony 1 flake/day, Horse 3, Clydesdale 5. Total per year: 3,285 flakes. ~275 bales/year at \$15 = \$4,100+ on hay alone.
- **0:19–0:23 Q&A** — weirdest thing about working with horses?
- **0:23–0:25** Goodbye + sticker.

1:00–1:25 — 7th & 8th Grade (45 kids)

Theme: The business behind the horses. Career talk. No baby talk.

- **0:00–0:03** Universal opening (tighter)
- **0:03–0:13 Tribal Cowboy as a business case study.** One pony to three revenue streams: parties, photography, school programs. Indigenous-owned advantage. Facial-recognition photo delivery as the unfair advantage.
- **0:13–0:18** Open Q&A: "What problem in North Idaho would YOU solve?"
- **0:18–0:22** Horse handling demo. 2 volunteers. How to approach safely. Why we never stand directly behind a horse.
- **0:22–0:25** Goodbye + internship pitch.

1:30–1:55 — 3rd Grade (41 kids)

Theme: Where horses came from + body language deeper.

- **0:00–0:03** Universal opening
- **0:03–0:10 How horses got to Idaho.** Came from Spain on ships hundreds of years ago. Spread north to Idaho. Nez Perce became famous for breeding Appaloosa.
- **0:10–0:15 Pony Vision lesson.** Eyes on sides, two blind spots. Walk around the pony narrating "can she see me? can she see me? now I'm behind her — she can't see me!"
- **0:15–0:20 Pony Looks — 6 signals.** Live demo with real animals. Happy/grumpy ears, calm/scared eyes, quiet/mad tail.
- **0:20–0:23 Q&A** — call on 3 hands.
- **0:23–0:25** Goodbye + tease the Sprint.

Materials Checklist (Pack Tonight)

Animals	Pony, horse, Clydesdales — clean, brushed, bathroom break before loading
Halters + leads	One set per animal
Mats / hoof boots	One per animal for the gym floor
Hay + nets + water	Filled hay nets, water buckets, 5-gal refill jug
Cleanup kit ×3	Bag, gloves, wipes, paper towels, mini broom
Posters	The 4 classroom posters you printed
Whiteboard	Small dry-erase + markers for Hay Math
Plateau map	Laminated printout for 3rd & 4th grade
Stickers	300+ (one per kid)
Take-home one-pagers	350 printed at Staples
Business cards	50
Sprint One-Pagers	6 (one per grade-level teacher + principal)

Framed pony photos	2 thank-you gifts (~\$30 total) for principal + lead teacher
Phone + backup battery + notepad	Helper takes notes
Liability/photo release binder + COI	Signed + Certificate of Insurance printed

What to Capture (helper's job)

Photos (no kid faces unless releases signed): wide shots, animals with materials, teachers with animals, backs-of-heads at each session.

Video (4 short clips): a kid asking a question (audio only), a 5th grader doing Hay Math out loud, an 8th grader's question, a teacher's one-sentence reaction.

Notes: One kid quote per grade, one teacher quote per grade, which activities worked best, animal moods, any teacher who mentions running another Sprint.

Contacts: Teacher full names + emails + phones. Principal info.

Two things matter most:

- 1. Every animal goes home safe and not too stressed. Watch them. Cut a session short if you need to.*
 - 2. At least ONE teacher asks about running the Sprint at their school next year. If three teachers ask — huge win.*
- The curriculum is real. The posters are real. The animals are real. Kids are going to remember tomorrow for a long time. Now go get some sleep.*
